

These are your advantages

All your personal qualification cards, certificates, degrees, report cards, etc. are saved digitally - your individual digital certificate folder

The Card stays valid, is usable and extendable for all of your life

Join classes, courses trainings all life long, all degrees und certificates - domestic or abroad - are saved dependably and tamper-proof

Security through digital data saving in a block-chain of a German certification network

All-time checking and verification everywhere through blockchain technology

Choose your career path: Academic and educational or practical „in the field“

Agencies, education institutions, sellers, stores accept the crads and are able to use the data on the spot

No authentication, no waiting period - the administrative part is significantly reduced

Automatic reminder for recertification, if necessary for time limited validity of documents or certificates

Automatic adjustment to latest decisions, specifications, examination regulations and law

Give a special touch to your studies

Choose your study program at the agricultural faculty of the University of Bonn and with your decision choose the additional training for the „quality-system-manager-junior“. This is the main criteria to be accepted for the Digital Cards -program.

Digital Cards as access

All certificates and proofs are not saved on the Card itself. It is the key to all data that is written into a blockchain. This gives you security, the chance for fast varification and it is tamper-proof.

Personalized door opener

You want to join a training program and need to prove a certain qualification? As a farmer, you want to buy special materials and need to show that you're allowed to use it? You have to prove your qualification to execute a special task? NO PROBLEM - show your card, data-checking on the spot, done.

Two Cards - the Digital Academic Career Card

Everyone who is working as lecturer, auditor, member of an educational institution or consultant for agricultural enterprises can apply for the DIGITAL ACADEMIC CAREER CARD.

Two Cards - the Digital Qualification Card

Everyone who is working in the field of agriculture in a practical way can apply for the DIGITAL QUALIFICATION CARD.

Life-long-learning-concept

During your academic or practical career, join additional training programs, visit courses of your choice or do a training for special tasks - for the whole of your life all certificates achieved will be saved digitally via your personal Card.
